

Arms Open Wide

Grady

Love (Love)
Love (Love)
Love (What you go, what you got)

I got peaches in the fridge
Good terms with my mistakes
There's nothing left to hide
I've opened up the safe, yeah yeah
I was scatterbrained
Constantly wasting time
Just numbing all my pain
You know you saved my life, yeah yeah

(You) Got my arms open wide
I'll let you in all the way, babe
This is why I'm alive
I've never felt like this for anyone but you

You don't hold no reservations
You just take me as I am
You turned me towards the sunshine
And now I love my tan
Where would I be without you?
Sometimes I get so low
But whenever I'm around you
Life sure is wonderful

(What you want?)
Openness and open arms
Both of us letting down our guards
Trumpets playing where there was alarms
(Yeah I kinda like that)
Oh you give me peace
Middle of the night your doorway gonna creak
And your dog ain't barking knowing that it's me
Love so good I'm like there's no way that it's free
'Cause you

Got my arms open wide
I'll let you in all the way, babe
This is why I'm alive
I've never felt like this for anyone but you

You don't hold no reservations
You just take me as I am
You turned me towards the sunshine
And now I love my tan
Where would I be without you?
Sometimes I get so low
But whenever I'm around you
Life sure is wonderful
