

bonfire

Grady

Get in the car, you're coming to the bonfire
Topanga Beach isn't a long drive
You've gotta meet Noah and Cody
They've got the same funny bone as me

Give or take 20 minutes on the interstate
You feel way out
You missed the magic but I think you get it now
Heavy arms wrapped around you to keep you warm and hold you down
We are the people that we choose to keep around
And I think that when I die
My greatest source of pride will be the ones by my side

Get in the car, you're coming to the bonfire
Topanga Beach isn't a long drive
You've gotta meet Noah and Cody
They've got the same funny bone as me
I love the smell of smoke on my cardigan
It reminds me of growing up at camp sites
Sleeping in tents, staring at star signs
Things I couldn't be bothered to memorize

We need more wood for the fire
It's 1:34 and I'm not even tired
Connors bringing more and said he's just about to arrive
Winter is yours to keep, but the summer is mine
I'll be at the beach til August expires

And I think that when I die
My greatest source of pride will be the ones by my side

Get in the car, you're coming to the bonfire
Topanga Beach isn't a long drive
You've gotta meet Noah and Cody
They've got the same funny bone as me
I love the smell of smoke on my cardigan

It reminds me of growing up at camp sites
Sleeping in tents, staring at star signs
Things I couldn't be bothered to memorize
