Canada Dry

Grady

Baby I can be your heaven
Striking like the clock eleven
Told you I got super powers
I can stop the April showers
I was always like your soulmate
I'll be your light on cold days
Your light on cold days

Peace of mind
Finally some peace of mind
I look into your pair of eyes
That's my paradise

You've been distant tell me where you at
Tell me that you love me that's a fact
You can always find me on the map
Tell me that you always got my back

I'm like ooo baby
I don't know if I could ever get sick of running around the world with you
At the Eiffel Tower in the middle of June

I'm like ooo baby
We could do this whole trip with no pictures
Time freezes already when I'm with you
Ooo
Ooo

Paradise
I could be your paradise
Paradise
I could be your Canada Dry

Take you overseas
We can roll the dice
Get you anything you need
Just tell me what you like
I wanna fly us out to Greece
Put champagne on ice
Put some Gucci on your sleeves
Come on

It's a lifestyle I gotta get used to
Guess you heard that I'm a different type of dude
Like Calliope I'm gonna be your new muse
Come on fly with me right into a new moon

I'm like ooo baby
I don't know if I could ever get sick of running around the world with you
At the Eiffel Tower in the middle of June

I'm like ooo baby
We could do this whole trip with no pictures
Time freezes already when I'm with you
Ooo
Ooo

Paradise
I could be your paradise
Paradise
I could be your Canada Dry

Paradise
I could be your paradise
Paradise
I could be your Canada Dry
