

Creases

Grady

Stroll outside, I think I finally found paradise
Oh, what a thing to be calling mine
Its got this mystical charm from a long time ago

Sometimes I wonder why women want me
Sometimes I wonder how we got here
Open the sun roof and put that good on me
I'm in a place in my life that's just one consistent high
I've got creases baby
A smile on my face
Got no reasons really that we should complain
I'm not leaving baby
And I hope that you stay, you put creases
You put creases on my face, oh

Throwing out the pride
1-800 just to fix the ride
I should probably just pick up a bike
Karma coming
Uber is outside
Treat you like an equal
I know that we got a lot of people in, people in, people in

Sometimes I wonder why women want me
Sometimes I wonder how we got here
Open the sun roof and put that good on me
I'm in a place in my life that's just one consistent high
I've got creases baby
A smile on my face
Got no reasons really that we should complain
I'm not leaving baby
And I hope that you stay, you put creases
You put creases on my face, oh
