

down the line

Grady

(Guess we'll just forget these feelings?)

Tonight I almost kissed you right before I left
I really thought about it standing in your doorstep
But then I thought maybe not, now isn't our time
I know we're playing the field
But a little down the line I only wanna be with you
Oh I only wanna be with you
Oh I only wanna be with you you you

And if you're seeing someone, I hope it's what you need
But I would still eat you out any time and then leave
Cause you're a permanent fixture in my life
We're having fun, but I know down the line
I only wanna be with you
Oh I only wanna be with you
Oh I only wanna be with you you you

I only wanna be with you
Oh I only wanna be with you
Oh I only wanna be with you you you

You are the apple of my eye
But baby, the fruit just isn't ripe
I'd only pick you down the line
But baby, the fruit just isn't ripe
