

# Driving Into The Sun

Grady

Driving into the sun I can't see where I'm going  
Down the Amalfi Coast your hair wild and blowing  
I'll pull out extra cash and we'll get Vespa tats

There's no service but we're still super connected  
Just the fact that we're here is making my head spin  
I want a summer crush  
Do you feel good with us?

Ooo I love this  
Baby I can barely catch a breath  
Ooo I love this  
Don't know where I'm waking up in next  
Ooo I love this  
Told her when we're sober we can rest  
Ooo I love this  
Pick a destination, get the jet  
I'm high high high high  
Oh I'm high high high high high

Missing turns cause I can't read the signs  
We're making out with no make up  
The water's up to our thighs  
Wrap your arms around me  
And entrust your life  
Wrap your arms around me  
Let's get lost on this ride  
Let's roll like a burrito  
Cards that I was handed  
Tell me God's in this casino  
You'd think I was a bandit  
And the roads are like a serpent  
Winding through the canyons  
She's an angel on the surface

Ooo I love this  
Baby I can barely catch a breath  
Ooo I love this  
Don't know where I'm waking up in next  
Ooo I love this  
Told her when we're sober we can rest  
Ooo I love this  
Pick a destination, get the jet  
I'm high high high high  
Oh I'm high high high high high

Yeah  
She got daddy's money yeah  
We could ditch France and fly Rome  
She's an independent girl  
But she don't wanna spend the night alone  
Luck is real, I'm living proof  
That shit was a quick finesse  
Shouts out G money, shouts out me  
For doing more shit and talking less  
I sold my cute bungalow  
Then I found a new place to sleep

I sold my convertible  
Then I grew wings and made the leap  
Cult of personality  
Everyone thinks they know me, but  
I can just reinvent myself  
I can disappear for a couple months  
Like, shit  
Up my CCs I'm out  
Turn on with them keys I'm out  
Gotta get to Greece  
Cause it's like 88 degrees I'm out  
Need an ocean breeze I'm out  
Take a pic, I'm cheesing  
Don't at me I don't need the clout  
Who am I still pleasing now?  
Oh it's just me? I'm out  
Oh it's just me? I'm out  
Oh yeah
