

FIRE

Grady

Fire

We lit the world on fire
It's not a concern
The world's one big swimming pool
Can't you see that life is better?
Shelves of ice becoming cubes

Summer came too soon
I'm on fire

It's a nose dive in the ocean, baby
The water might rise, but we're floating baby
We don't need a parachute
The city looks nice underwater, baby
And you always looked nice in a skimpy little two piece swimsuit

Really showing so much to me now
Did the kittens and pups make it out?
I don't think about it much really now

But this heat never goes
I'm so exposed

Summer came too soon
I'm on fire
