

Koala

Grady

"Shut up and act like your having a good time"

Come and meet my mama
Show her who I call up whenever I get home
Become my koala
Sticking like a part of my jacket that's velcro
Heart like Arizona
Spicy's not my thing but we can make it work
Oh, become my koala
Sticking like a part of my jacket that's velcro

Update, I got a new baby (wow, wow, yuh)
We been doin' nothing but feeling too amazing
Haven't done the chores in a week
Told her that "I'm yours" so see how that goes
When she got the floor no one speak
You know that's difficult for me

Come and meet my mama
Show her who I call up whenever I get home
Become my koala
Sticking like a part of my jacket that's velcro
Heart like Arizona
Spicy's not my thing but we can make it work
Oh, become my koala
Sticking like a part of my jacket that's velcro

Still on vacation
Eatin' my way in
Avocados and bacon
And the summer vibes packed us some meditation
And it's making me laugh
I get way to impatient
Like I'm not getting this back
You couldn't let him go
Of what's out of your control and I think that's important
We're both emotional
I'm pretty sure you know this part

You deserve it all
Whatever that means to you
Oh yes baby you're gon' get it
Oh yes baby don't forget it
You deserve it all
Whatever that means to you
Oh yes baby you're gon' get it
Oh yes baby don't forget it
Just

You see the brightest star in the room
That's my baby
You see me smiling hard and wonder why
That's my baby
Who fills my eyes with super glue
That's my baby
Who's got my pride in her front pocket?
That's my baby
