

Quality Time

Grady

She live down the street and she luh love dancing
Came from overseas with that fun fun accent
Hit me up at three for some quality time
Quality time, quality time

Love is bittersweet but I don't don't panic
Cookies and the cream fucking up my pantry
Coming home with me for some quality time
Quality time, quality time

So precious, denim and ball caps
Saved her to favorite contacts
No stress, we don't gotta write contracts, no
She's in the tower, I'm not talking about Pisa
I got her flowers, now she's wearing my t-shirt
Stay up for hours eating overpriced pizza
She's cooler than the açai in my freezer

She live down the street and she luh love dancing
Came from overseas with that fun fun accent
Hit me up at three for some quality time
Quality time, quality time

Love is bittersweet but I don't don't panic
Cookies and the cream fucking up my pantry
Coming home with me for some quality time
Quality time, quality time

(QT)

She's gonna be an actor
Those looks are gonna be a factor
Reality with a happy ever after

She's rose scented from head to toe
In the garden of Eden everywhere she goes
She's a little bean, she's a little vegetable
It's type of thing I just feel blessed to know, oh yeah

She live down the street and she luh love dancing
Came from overseas with that fun fun accent
Hit me up at three for some quality time
Quality time, quality time

Love is bittersweet but I don't don't panic
Cookies and the cream fucking up my pantry
Coming home with me for some quality time
Quality time, quality time

Love is bittersweet but I don't don't panic
Cookies and the cream fucking up my pantry
Coming home with me for some quality time
Quality time, quality time

(What are you looking for down there?)
