

## Sunlight

Grady

Light of my last week or two  
What was life like before you?  
Running up and down the coast  
With our underwear exposed

Angel of early July  
Ever since you caught my eye  
We haven't been disconnected  
Making you meet all my friends

In every party that we walk into  
It's felt quite a bit like it's our honeymoon

You are made out of sunlight  
You are made out of sunlight  
I wanna show you to all of my friends  
Whenever I hold you my skin starts to tan  
Oh you are made out of sunlight

Light of my last week or two  
Where would I be without you?  
Probably out in Mykonos  
I didn't go, but I was close

Now we're spending the whole week lodged  
At the petit ermitage  
I'll be on a big plane soon  
But I'm in no rush cause this is cool

I'm writing on the rooftop now with Shawn  
And this bottle of red wine is almost gone

You are made out of sunlight  
You are made out of sunlight  
I wanna show you to all of my friends  
Whenever I hold you my skin starts to tan  
Oh you are made out of sunlight
