

# Sunset Therapy

Grady

My office window has an issue with consistency  
Every three days or so, ,it needs to show a different scene  
I can't watch horror(whore) films, but I'm a slut for mystery

(Let's see  
Let's see where this goes)

My office window's looking out to sunset therapy  
Mediterranean coastlines and villas on the beach  
But come tomorrow, only god knows where I'm gonna be

I just put an ex on the map  
Don't know how I feel about that  
I just split a rent here with Jack  
Theo never even slept at the pad

She wouldn't dance with me  
I think I need a break from it, though  
I'm gonna grab a seat  
I'm gonna sit down  
I'm gonna chill  
I swear it's all I'm gonna do  
I'm gonna relax, stop chasing all of these thrills

It's a fast life  
50 double Cs near my damn thighs  
I'm 50 miles from Nice on a black knife with just a couple wheels and a flas

Not making bad time  
I just want to meet someone that's nice with an ass I can see from the damn  
side  
Who really likes the beach and also really likes to read  
Oh fuck! My damn flight  
I guess I'm not leaving, I'm sat tight  
Cancellation fees, don't pay that mind

How long have these jeans been on me?  
More than a weekend  
I pack light  
How many bags you need?  
You can have mine  
How often have you seen a grown man cry?  
Let's discuss our feelings, I wanna kill my weakness and...
