

# THANK YOU

Grady

When I look up to the stars above, I feel love from every one  
And I wonder who they're warming up like the sun does for me  
Cause all of them shine on a galaxy as large as mine  
It's so awesome that the stars aligned, is it possible it happened twice?

Well, the thought is nice

Thank you for this light  
I feel on my face making my days and my nights  
Hey when I see you rise  
I just want to thank you every time

It's just so nice that I am praying there's life dancing around  
Somewhere outside of this sphere  
That some distant entity is basking in the energy  
Of some big heavenly ball like here  
Cause I know that they shine on a galaxy as large as mine  
It's so awesome that the stars aligned that I'm hoping that it happened twice  
Oh the thought is nice I've gotta

Thank you for this light  
I feel on my face making my days and my nights  
Hey when I see you rise  
I just want to thank you every time  
Oh thank you

Oh thank you, thank you, thank you  
Oh thank you, thank you, thank you  
Oh thank you, thank you, thank you...
