

Why Aren't You Dancing?

Grady

Why is everybody angry?
Why is everybody bored?
All they do is point their fingers
I don't think anybody's sure
Listen

No one knows how to be patient
And no one can take a joke
If we all get what we paid for
Why is everybody broke?

One more thing

If the world is spinning round
Then tell me why aren't you dancing?
All the trees stuck in the ground
Are doing more than just standing
I don't know if they make a sound
But I guess I'll take my chances
If the world is spinning round

There's a song I don't remember
I think I wrote it in my mind
But the words were really simple
Something about
"Everything ending up fine"

One more thing

If the world is spinning round
Then tell me why aren't you dancing?
All the trees stuck in the ground
Are doing more than just standing
I don't know if they make a sound
But I guess I'll take my chances
If the world is spinning round

Are you mad?
Fix your face
Come and get this cake
Give me a kiss, here's a plate
Let me celebrate
It's my big day and I made my Momma proud
I was in a foreign state
I do want I wanna now
Look at what it costs
Just to make some people smile
I'm so glad I didn't grow up as a Nero child
If you want a break, come here baby
Let's forget that everybody's going crazy

If the world is spinning round
Then tell me why aren't you dancing?
All the trees stuck in the ground
Are doing more than just standing
I don't if they make a sound
But I guess I'll take my chances

If the world is spinning round
