

Cut

Graham Colton Band

The light is breaking through the window.
We count the miles.
Do you hum to static in your own life?
Or the radio?

Cut a little bit of me out tonight.
Take a little bit of me inside to make you right.
Cut a little bit of me out tonight.
Cut a little bit, cut a little bit, cut a little bit, cut a little bit.

If you want, you know that we could drive forever.
Do you wanna go?
Do you feel that you never really found your station in life?
I'm a radio.
(I'm a radio)

Cut a little bit of me out tonight.
Take a little bit of me inside to make you right.
Cut a little bit of me out tonight.
Cut a little bit, Cut a little bit, Cut a little bit, Cut a little bit.

You're driving off with the brakes on...
(You're driving off with the brakes on)
Come on out to me.
(You're driving off)
(You're driving off)
(You're driving off with the brakes on)
Yeah.
(You're driving off with the brakes on)
Come on out to me, yeah.
(You're driving off)
(You're driving off)

I wish you could see everything that you
Could be.
If you just let go.

Cut a little bit of me out tonight.
Take a little bit of me inside to make you right.
Cut a little bit of me out tonight.
Cut a little bit, Cut a little bit, Cut a little bit, Cut a little bit.

Come on out to me.
(Cut a little bit of me out tonight)
Come on out to me.
(Cut a little bit of me out tonight)
Come on out to me.
(Cut a little bit of me out tonight)
Yeah. Come on out to me.
(Cut a little bit of me out tonight)
