

First Time

Graham Colton

Told my fate hello when I finally met it
Finally saved my soul when I tried to shed it

Never gonna give it up
Never gonna let it go
Never gonna give it up
No

For the first time I'm waking up
For the first time I'm waking up

Now my eyes are open the light's are blinding
Now my heart's unfolding the past behind me

Never gonna give it up
Never gonna let it go
Never gonna give it up
No

For the first time I'm waking up
For the first time I'm waking up

Now I'm gonna live it up
Never let it go
Now I'm gonna live it up
Never let it go
Now I'm gonna live it up
Never let it go
Now I'm gonna live it up
Never let it go

For the first time I'm waking up
For the first time I'm waking up
For the first time I'm waking up
For the first time I'm waking up
