

# Place Where I Begin

Graham Colton

When I'm fighting  
Would you fight with me?  
Would you dive in?  
When the water's deep?

Who knows where I'm going?  
You're the place where I begin

Now I'm running  
Running through a dream  
Hang onto the moment  
It's turning to memory

We'll go where the wind is blowing  
You're the place where I begin

Ooh  
Ooh

When you're falling  
Falling out of reach  
I'll be the tide  
It's bringing you home to me

And when the sun sets  
(The lights fading) ooh  
We'll hang onto the moment  
As far as our eyes can see

Who knows where I'm going?  
You're the place where I begin

Ooh  
Ooh

When I'm fighting  
You are where I begin  
You are where I begin  
Where you're falling  
You are where I begin  
You are where I begin

You are where I begin  
You are where I begin  
You are where I begin  
You are where I begin
