Safe and Sound

Graham Colton

I never knew what love was until I held you
I never knew the right words until I found you
Ooh-ooh-ooh, ooh-ooh-ooh, ooh

These eyes are never open until I saw you
My heart's now unfolding, it was made for you

Every day before you, I was holding down
If you want the stars I can pull them down
Baby in my arms you'll be safe and sound

Ooh, ooh, ooh
Ooh, ooh, ooh

Now this fire we got started forever burns up the sky
Oceans we parted, the mountains yet to climb

Every day before you, I was holding down
If you want the stars I can pull them down
Baby in my arms you'll be safe and sound

And in front of me all I can feel
Is how it all unfolds
From the sunrise to the dead of night
I'll never let you go

Ooh-ooh-ooh, ooh-ooh-ooh, ooh
Ooh-ooh-ooh, ooh-ooh-ooh, ooh

Every day before you, I was holding down
If you want the stars I can pull them down
Baby in my arms you'll be safe and sound

Ooh, ooh, ooh
Ooh, ooh, ooh
