

Say You Do

Graham Colton

I'd wait forever, honey
For one more minute with you
I'd spend all my money
To spend more time with you
It may sound a little bit funny
There's no one else like you
Say that you do

I was on a long road, running
Found my way to you
From driving rain to sunny
We made it through
Might say we're a little bit funny
But then I, then I should
Say that you do...
I do...

Give me your hand, my darling
I'll give you mine to hold
And now forever's starting
Wherever we may go
We'll take a silver lining
And turn it into gold
Say that you do...
I do...

They say love is blind
But these two eyes
Will never stray from you
For all our lives
'Till the end of time
Say that you do...
I do...

Say that you do
