

Waking Up

Graham Colton

I am waking up for the first time
My mind is made up
I open my eyes I can't shake it off
What you said last night
I have slept enough now I'm going outside
I can run every step counts these days
Everyone asking for my parking space
Please someone tell me how to get the day back
I'm waking up I have barely opened my eyes
I'm waking up I have barely opened my eyes

Standing on my own by the street light
She has come and gone with stains in her eyes
I can't shake it off
What you said last night
I have slept enough now I'm going outside
I can run every step counts these days
Everyone asking for my parking space
Please someone tell me how to get the day back
I'm waking up I have barely opened my eyes
I'm waking up I have barely opened my eyes
