

A Better Beginning

Graham Coxon

When you lean on your window and call after me
And I walked like a hero right into the sea
Walk down the road with me

When you wake in the morning and feel incomplete
Just pull out that old dress and get back on the beach
Walk down the road with me

Looking out what I'm here for
Getting out of my head
Making plans for a better... beginning

Never knew
Never knew
How much I've compromised
For her
Couldn't be true
How much it hurt
Untill you hold me

Untill you open my eyes
Open my eyes
And made me realize

And then you open my eyes
Open my eyes
And made me realize
