

Alone And Free

Graham Coxon

Holding onto a planet dying
That old life so dead and gone
Reaching out to a comet flying
It's light it's fire it's circle song

I need a love I can rely on
And I can see in your eyes
The aching heart the strength of lions
It could have been paradise

Holding onto a planet dying
That old life so dead and gone
Reaching out to a comet flying
It's light it's fire it's circle song

Oh where the sky meets the sea
Oh the moment when you found me
I'd rather be alone and free
Than see you turn and go from me
I'd rather be alone and free
Than see you turn and go from me

Oh if you could have only seen
Oh what a waste of all that beauty

I'd rather be alone and free
Than see you turn and go from me
I'd rather be alone and free
Than see you turn and go from me
