

Bullets

Graham Coxon

Sounds don't bother me
'Cause I'm going out to sea
Go ride another wave
'Cause they've got it in for me

You can catch up with me somewhere down the way
You can catch up with me somewhere down the line

They came for me
They came for you
They came to see
They were telling the truth
Bullets
They came for me
They came for you
They came to see
They were telling the truth
Bullets

The hounds, they follow me
Lies too mad to see
Stalking night and day
The fear they smell on me

You'll catch up with me somewhere down the way
You'll catch up with me somewhere down the line

They came for me
They came for you
They came to see
They were telling the truth
Bullets
They came for me
They came for you
They came to see
They were telling the truth
Bullets
