I Don't Wanna Go Out

Graham Coxon

I, don't wanna go out
I, don't wanna stay in
I'll sit inside my box and vandalize my dirty mind

I, don't wanna go out
I, don't wanna stay in
I'll sit inside my room and vandalize my dirty mind
I won't get any food but then I'll eat myself alive

I, am bumming you out
I, am doing you in
This mess is running in and out of every part of me
The less that I am wanting you, the more I want to see
You got a silver bullet, at my heart you're aiming
You're gonna shoot me down if I just start complaining
You only want me when you got me pleading
When you got me on my knees then you should stop my
bleeding

Do it, no don't ever make me do it
There's hostility from everyone around, yeah
Do it, no don't ever make me do it
There's hostility from everyone around, yeah

Do it, no don't ever make me do it
There's hostility from everyone around, yeah

Do it, no don't ever make me do it
There's hostility from everyone around, yeah

Do it, no don't ever make me do it
There's hostility from everyone around, yeah
