Simple Days

Graham Coxon

```
Life outside the world of words
But I know that I'll find
A universe in her eyes
Set free from my old self
But still I will return
To her somehow

I'll look back upon these simple days
As the best I've ever had
I'll carry them always

I will miss those carefree years
But I have spent too long
Strung out there in the wilderness
Finally I've found some peace
Just being with you

I'll look back upon these simple days
As the best I've ever had
I'll carry them always
```
