

The Astral Light

Graham Coxon

We're shining, we're bright
We live in the Astral Light
We're shining, we're bright
We live in the Astral Light
We're shining, we're bright
We live in the Astral Light
We're shining, we're bright
We live in the Astral Light
Live in the Astral Light

Don't you win, I'm gonna get you now
Don't you win, I'm gonna get you now
Ahhh
Don't you win, I'm gonna get you now
Don't you win, I'm gonna get you now
Ahhh

Hell hath no fury
Like Mother Earth's scorn
It's through her we are taken
It's through her we are reborn

Honey now it's time to come with me
Honey can you feel the [?]
Honey always wants to sail away
Honey want a simple life
Honey wanna take her far away
Honey wanna roll this stone to me
Honey want a silver airplane
Take her to the other side

We're shining (give up), we're bright (give up)
We live in the Astral Light
We're shining (give up), we're bright (give up)
We live in the Astral Light
We're shining (give up), we're bright (give up)
We live in the Astral Light
We're shining (give up), we're bright (give up)
We live in the Astral Light

It's something, obscene
It's something, you see
It's something, obscene
[?] madman
It's something, obscene
[?] madman
It's just a, bad dream
They kill the trees
Kill human beings
Know what I mean?
Yeah

Give up
Give up
Ooh
Give up
Give up

Ooh

We're shining, (give up), we're bright, (give up)
We live in the Astral Light
We're shining, (give up), we're bright, (give up)
We live in the Astral Light

Ahhh
Ahhh

Hell hath no fury
Like Mother Earth's scorn
It's through her we are taken
It's through her we are reborn

If that's what you believe
You are very mistaken
It's not what we believe
Goodbye to heaven
If that's what you believe
You are very mistaken
It's not what we believe
Goodbye to heaven

Honey always wants to sail away
Honey wanna roll this stone to me
Honey want a silver airplane
Honey wants what they call
Life
Life

(Life) it's something, obscene
It's something, you see
It's something, obscene
[?] madman
(Life) it's something, obscene
[?] madman
It's just a, bad dream
They kill the trees
Kill human beings
Know what I mean?
Yeah
