

Where'd You Go?

Graham Coxon

Where'd you go?
Dark eyed traveller
I almost feel you breathe

Where'd you go?
Dark eyed traveller
Can you even hear me speak?

You made things bright
When they took the light away
Led me inside and kissed all my tears away
Said you were here to stay

Where'd you go?
In the morning
When I was weighted down with dreams

Where'd you go?
In the morning
When fever pulled me down stream

You made things bright
Then you took the light away
Lent me your eyes and showed me a brand new way
Now I just feel dead today
