

## Buddy's Back

Graham Nash

I remember when we were young at heart  
And all we wanted to learn was there in the stars  
We heard their voices on the radio  
We copied the style, then we let it go

And in front of a mirror we would play  
Pretending to be them everyday  
And then we started a band, just to have some fun  
And we created a sound as we sang as one

Buddy Holly was who we loved, right from the heart  
His music is still around, believe me, Buddy's back

Buddy Holly was who we loved, right from the heart  
His music is still around, believe me, Buddy's back

And after all these years went by so fast  
We brought him with us from the past  
And if we listen today to our old soundtrack  
You'd better believe me, Buddy's back  
Buddy's back, Buddy's back, Buddy's back, Buddy's back
