

In Your Name

Graham Nash

Lord, can you help me?
Help me deal with this pain
Can you stop all this killing, in your name?

And Lord, if you're out there
You know the whole world is going insane
So can you stop all of this killing in your name?

Down through the ages, we've all come to learn
Wise men leading the way
So read all the pages in the books from above
But don't get led astray

Down through the ages, we've all come to learn
Wise men leading the way
So read all the pages in the books from above
But don't you get led astray

Lord, are you listening to a prayer from a simple man?
Can you stop all the sadness?
Can you stop all of this madness?
Can you stop all of this killing in your name?
