

# Love Has Come

Graham Nash

Love has come  
And taken me  
Out of my mind  
I've got so much to find out  
So much to give out  
So much to take in  
And pass on again

The sun has come  
Awaking me  
Out of my dream  
I've got someone to lean on  
Talk to and turn on  
Talk to and turn on

Love can find you, love can find you  
You've got to be there  
Love can find you, love can find you  
You've got to be there  
Someone will care

You have come  
Fulfilling me  
Taking me over my head  
All of my love is with you  
Part of my soul is in you  
Taking me higher

Love can find you, love can find you  
You've got to be there  
Love can find you, love can find you  
You've got to be there  
Someone will care
