Where Love Lies Tonight

Graham Nash

Somewhere, somehow, I've found you Could love me all my life Fall into my open arms Where love lies tonight

Only lonely hearts can break I see it everyday Underneath a crushing weight Love flies away

How many times have I loved and lost? If only my heartaches could heal How many times can I count the cost? Knowing the way that I feel

When you walked into my heart My life just opened wide Giving me a brand new start Where love lies tonight

How many times have I loved and lost? If only my heartaches could heal How many times can I count the cost? Knowing the way that I feel

Somewhere, somehow, I found you Could love me all my life Fall into my open arms Where love lies tonight Where love lies tonight
