Sometimes you play around and I don't know what your game is

F# g bm a f#

Sometimes it hurts so bad I don't know where the pain is

Bm ag f#

But it's all worth nothing alone

Bm a g f#

It's all worth nothing alone

Give me a break now I'm what I am

Try to fill up all the empty space in me

Give me a shakedown and tie my hands

And make me be what I could never be

Sometimes I act just like world owes me a favour

Sometimes bitterness has been my only flavour

But it's all worth nothing alone

It's all worth nothing alone (solo)

Ag a g

I've got everything I desire oh but it's easy to tire

A g

If I had your love I could be strong

A f# bm g f#

But you're always right and I'm never wrong (solo)

It's all worth nothing alone it's all worth nothing alone

It's all worth nothing alone (repeats and fades) /pre>
