

Back To Basics

GRAHAM

Woah, we had a couple of fights that doesn't mean we're couple
that fights
Sorry, I shouldn't have said that right, yeah
It doesn't matter who's right, I'm taking back what I said last
night
Sorry, I shouldn't have said my mind, yeah

Let's take this back to basics, basics
I know I said that I'd change, baby, I meant it
Let's take this back to basics, basics
Baby, let me explain I can't explain it

I should've thought twice before I said it
I'm trying to start fights in the dark like reddit
Start my day sent a text and she read it
Know I'm upset what I said I regret it
I don't wanna lose you, I paid all my dues like credit
And maybe then we could forget it, let's omit it
Cause something been different lately, baby maybe
I don't give you time enough
Driving me crazy switch my mood
Let's do something new let's lighten up
That's not how this works
Made me want to live in a fiction like Spielberg
I'm out in the burbs
Cause ain't problems in the burbs

Woah, we had a couple of fights that doesn't mean we're couple
that fights
Sorry, I shouldn't have said that right, yeah
It doesn't matter who's right, I'm taking back what I said last
night
Sorry, I shouldn't have said my mind, yeah

Let's take this back to basics, basics
I know I said that I'd change, baby, I meant it
Let's take this back to basics, basics
Baby, let me explain I can't explain it
