

## Deja Vu

GRAHAM

You know I been callin'  
I been callin', I been callin' your phone  
You ain't pickin' up, I message after the tone  
You play hard to get, but baby, we both know  
I'm like, let's get a little bit closer  
Baby, do you miss it?  
We could start it over and over, repetition  
When I see you, you, I get déjà vu  
Baby, let's not wait another moment  
Let's make a decision  
Baby, if it's broken, then we gotta fix it  
When I see you, you, I get déjà vu, ooh

You been dodgin' me like I been out of state  
You a different person when we're face-to-face  
You're the only reason that I lie awake  
I lie awake  
Why we playing games? Let's be real  
You change up your mind, I can't get a feel  
Let's get on the same, let's both know the deal  
I want what we built, what we built

You know I been callin'  
I been callin', I been callin' your phone  
You ain't pickin' up, I message after the tone  
You play hard to get, but baby, we both know  
I'm like, let's get a little bit closer  
Baby, do you miss it?  
We could start it over and over, repetition  
When I see you, you, I get déjà vu  
Baby, let's not wait another moment  
Let's make a decision  
Baby, if it's broken, then we gotta fix it  
When I see you, you, I get déjà vu, ooh  
  
Ooh-ooh, I get déjà vu
