

drive

GRAHAM

It might hurt sometimes
You get down and you forget about your light sometimes
And it's hard to reconnect, but in another life
Baby, we could run away if I told you that I'd stay
If I told you—

Chase the horizon until we find it
We could just drive, drive, drive, drive away
Don't need directions, follow our senses
Baby, let's drive, drive, drive, drive away (Drive away)

Ten thousand miles in a week
You can have the driver's seat
I'll sit back and just watch you
You know you're my missin' piece
You got everything I need
I'll sit back and just watch you

Chase the horizon until we find it
We could just drive, drive, drive, drive away
Don't need directions, follow our senses
Baby, let's drive, drive, drive, drive away (Drive away)

Baby, let's drive (Oh-oh, oh-oh), drive
Baby, let's drive (Oh-oh, oh-oh), drive

Chase the horizon until we find it
We could just drive, drive, drive, drive away
Don't need directions, follow our senses
Baby, let's drive, drive, drive, drive away
