

Early For Goodbyes

GRAHAM

I can't shake the feeling and I've tried everything
But the more I spend with you more I fall victim to it
These thoughts get on to my skin I hate to hold them in
Every breath reminds me nothing is certain

'Cause I don't want to live in a world that you're not living in
Oh I can't bear to be alone

And I don't want to feel these feelings for somebody else
That part of me has died
And I don't want to heal I'd rather bring on the pain than forget
That's keeping me alive
And you know I try
But it's too early for goodbyes
Early for goodbye ooh oooh ooh

I'll see you everywhere but you're nowhere to be found
I'll take it day by day but I'm counting the days down
And life's not to be wasted if you gotta take me now
But I know that's not okay and I'm not proud

'Cause I don't want to live in a world that you're not living in
Oh I can't bear to be alone

And I don't want to feel these feelings for somebody else
That part of me has died
And I don't want to heal I'd rather bring on the pain than forget
That's keeping me alive
And you know I try
But it's too early for goodbyes
Early for goodbye ooh oooh ooh
