

# Enough For You

GRAHAM

After everything I do  
Was it still not enough for you? (Yeah)  
Still not enough  
Still not enough for you (Yeah), for you

Know I been here when it wasn't been official  
Know I been here when we used to keep it simple  
We had some momentum, we was movin' little by little  
But now I'm fightin' just to get out of the middle  
How you switched now? (Switched now)  
Found somebody new, and I got switched out (Switched out)  
Call my name, you know I'm down without a doubt  
Who else was there for you when I was down? When I was down  
I've been rockin' with you way before I ever got a check  
Been here from the jump, yeah, I've been here like every step  
Yeah, my ego took a hit, but not the same one as my heart  
Like who you know that's been here from the start? (Yeah)

How you 'bout to move me out the way?  
Thought I'd never see the day (Never see the day)  
You're the one I thought I'd never have to lose

After everything I do  
Was it still not enough for you? (Yeah)  
Still not enough  
Still not enough for you (Yeah), for you

Uh, turn that page, yeah, left that in the rearview  
I heard what you sayin', yeah, but ain't really hear you  
We left the moments in the moments it was me and you  
And I thought forever was forever, but that wasn't true  
Ride or die, now I'm hangin' on for life, somethin' cloudin' up  
my mind  
I can't stand to see through all the white lies, I can't even r  
ecognize  
Never thought I'd feel this way because of what we've been thro  
ugh

How you 'bout to move me out the way?  
Thought I'd never see the day (Never see the day)  
You're the one I thought I'd never have to lose

After everything I do  
Was it still not enough for you? (Yeah)  
Still not enough  
Still not enough for you (Yeah), for you
