

# Letting Me Down

GRAHAM

I can't fall asleep, my mind is running wild  
I replayed the moments and I still can't figure out  
What I did to make you run away or why you cut me off  
I had some belief, I was in denial  
The more that I was hoping  
The more that I had doubts  
I don't believe a word you say  
It was the same as it is now

You know I play it cool  
But on the inside I'm dying  
You might say some things  
But I know deep down you're lying

And I got burned like a cigarette, when those words left your mouth  
And I can't escape your silhouette, it follows me around  
Oh I thought I let it go by now, but you just keep on letting me down  
Sometimes I wonder if you still regret the things you said out loud  
Those memories that I can't forget are buried in the ground  
Oh, I thought I'd let it go by now  
But you just keep on letting me down

I lost track of time but I know it's been a while  
I'm not sure how forever turned to kicking me on out  
Yeah maybe it was all my fault but honestly I doubt

You know I play it cool  
But on the inside I'm dying  
You might say some things  
But I know deep down you're lying

And I got burned like a cigarette, when those words left your mouth  
And I can't escape your silhouette, it follows me around  
Oh I thought I let it go by now, but you just keep on letting me down  
Sometimes I wonder if you still regret the things you said out loud  
Those memories that I can't forget are buried in the ground  
Oh, I thought I'd let it go by now  
But you just keep on letting me down
