

# made for you

GRAHAM

What you like, I like  
And what you try, I try  
'Cause I just wanna be right next to you, oh  
When you cry, I'll cry, oh  
It's all by design  
'Cause I just wanna be right next to you, oh  
I was made, made  
I was made for you

I've seen the worst of all your flaws, yeah  
But it'll take a whole lot more for me to be gone, yeah  
Anything that you want is what I want  
Because seeing you smile, oh, I could never get enough  
I'd change every part of me to be whatever you need

What you like, I like  
And what you try, I try  
'Cause I just wanna be right next to you, oh  
When you cry, I'll cry, oh  
It's all by design  
'Cause I just wanna be right next to you, oh  
I was made, I was made for you  
I was made for you, yeah
