

## Overdue

GRAHAM

I empathize with those simple highs again  
I'm terrified that I'll waste your time again  
How do we stay on solid ground?  
What would it take to make your doubt  
Love on display when your around  
What if I change who I am now?

It's long overdue, I'm closer to the day when we announce what  
we found  
I'll be holding you, my love cannot be bound to no amounts  
This I do is long overdue

Up late night fighting  
I'm out of line again  
Our words dividing  
Is this what's more than friends

We made a home out of a house  
Baby, come home, let's work this out  
I feel alone when your not around  
Where would I go? I can't go without

It's long overdue, I'm closer to the day when we announce what  
we found  
I'll be holding you, my love cannot be bound to no amounts  
No amount  
Time alone with you, that's something I can never go with out,  
yeah, go without  
If it's all to new, I'll never change the way I feel about  
This I do is long overdue
