

TikTok Made Me Do It

GRAHAM

One two

I think TikTok made me do it
It got me acting out of character, foolish
And I wish that I had more excuses
But I don't, I don't

I need a B.B. for different income streams
And these memes show me the person that I don't wanna be
Okay I need to see these places overseas
I tell my boss that I'mma quit
I'm taking off for the week
Don't need your two cents
Please don't bother
I know more about myself than the doctor
I think it's useless we went to college
I learned everything I know from my pocket
Who do you think you are Mr. PhD?
I got a bachelor's in conspiracy
I don't need to set an alarm
I'm waking up at 3
Somebody told me it was best for me

I think TikTok made me do it
It got me acting out of character, foolish
And I wish that I had more excuses
But I don't, I don't

I think TikTok made me do it
I make decisions off of digital movements
Do you know what it means to be human
'Cause I don't, I don't
