

# Weak

GRAHAM

Can't blame the Apple, that's the battle that I fight  
I found peace outside of Asheville, but from Nashville, that's  
a drive

Then I told you things that made you see me in a different ligh-  
t

Oh, my heart knows I'm redeemed, but my self-  
esteem still can't decide

When my world seems to go wrong  
It's my tell when I show you I'm strong (Oh)

But the truth is, I'm weak  
A handful of pieces  
I fought on my knees  
Don't make me feel safe if you're not plannin' to stay  
When my strength runs dry  
I pray you'll be standing by my side

I try to mask the person that I keep inside  
As I stare up at the ceilin', there's a feelin' I can't deny  
Oh, this strength is not my string suit, but with you, I feel a  
lright  
I've been lettin' down my guard, and I know it's hard, but it's  
worth the fight

When my world seems to go wrong  
It's my tell when I show you I'm strong (Oh)

But the truth is, I'm weak  
A handful of pieces  
I fought on my knees  
Don't make me feel safe if you're not plannin' to stay  
When my strength runs dry  
I pray you'll be standing by my side
