

## Write Me In

GRAHAM

White space  
With letters on the page  
The name's all the same  
But the plot keeps changing  
Might age  
But always entertain  
We open up the world  
Through the words we're painting

New day and we turn another chapter  
Cliché no it's happy ever after  
Someday if you read my mind  
You'd know just what I'd say

Won't you write me in  
Write me in  
Won't you write me in  
Write me in  
Before the story ever ends  
I hope that I might make it in  
Oh, and if we meet again  
Oh, maybe then  
You could write me in

Love won't you spell it out for me  
I wanna know you  
Won't you spill it out for me  
Tell me what you want  
I know you're looking out for me  
I wanna know you  
Babe, call it out for me  
I could be the one

You wrote you wrote  
Words on all the pages  
Who knows who knows  
Take a leap of faith or two  
I know I know  
We could recreate it  
You go you go  
You go out and make it new

New day and we turn another chapter  
Cliché no it's happy ever after  
Someday if you read my mind  
You'd know just what I'd say

Won't you write me in  
Write me in  
Won't you write me in  
Write me in  
Before the story ever ends  
I hope that I might make it in  
Oh, and if we meet again  
Oh, maybe then  
You could write me in

Write me in  
Write me in  
You could write me in  
Write me in  
Write me in  
You could write me in
