Turbo Boost

Grailknights

I came from the dark
The very deep dark
To the sound of spinning wheels
My foot pressed to the floor
As you hear the engine roar
and rubber on tarmac squeals

I kick up the dust and speed into the sun
It's red glowing light guides me home

Boost – Turbo boost – I've got nothing to lose
I'm the man who did never exist
Boost – Turbo boost – Now it's time to break loose
For all time it is us to resist
Boost – Turbo Boost

On my crusade
The one only raid
To champion the cause of the weak
My black car speeds out fast
as I leave behind the past
to the sound of the the scanner's sweep

I kick up the dust and speed into the sun
It's red glowing light guides me home

Boost – Turbo boost – I've got nothing to lose
I'm the man who did never exist
Boost – Turbo boost – Now it's time to break loose
For all time it is us to resist

One Knight can make a difference and it is not a matter of time
For time does not count for the immortal keeper of the Holy Gra
