

Victorious

Grailknights

Don't count the years
That you've been waiting
Come dry the tears
Our hearts will remain (with you)

The day has come
To end all the silence
The time is right
We rise again

Stand tall and face the north wind
Call to arms, we march till the end

Celestial dawn
Hear the armies of the fallen
Look to the sky
Old strength they regained

The day has come
To end all the silence
The time is right
We rise again

For years
I've been waiting
For years
For this day to come

Don't give in to your fears
And you shall get what you deserve
Don't leave the road
Tonight strike back with no reserve

[Chorus:]
We shall regain
Honour and might
We shall reclaim
Power and pride

Eternal sunlight
Illuminates the darkness
Don't fear the end
It's s all but a dream

The day has come
To end all the silence
The time is right
We rise again

Stand tall and face the north wind
Call to arms, we march till the end

Don't give in to your fears
And you shall get what you deserve
Don't leave the road
Tonight strike back with no reserve

[Chorus]

We must conclude
Pain and demise
We must exile
Deceptions and lies

Victorious
Pass the flickering flame
Victorious
We shall remember your names
Victorious
Your lights will conquer the world
Victorious
Your voice shall not stay unheard
