

Jukebox App

Grandaddy

Silhouette of a flame that died
Your hair lit up by a neon light
You and some dude knockin' back the shots
While I'm out here in the parking lot

More credits don't let it go on
Or I'll play more songs
More credits don't let this go on
Or I'll play all our songs

Jukebox app from a darkened car
I'm parked out back of our favorite bar
Same song's on and on and everyone is going insane
While I'm out here in the parking lot again

More credits don't let it go on
Or I'll play more songs
More credits don't let this go on
Or I'll play way more songs
More credits don't let it go on
Or I'll play all our sad ones
More credits don't let this go on
I'll play 'em all night long

And on and on and on and on and on and on and on and on and on
