

Sure it Worked

Grandaddy

It seems that we tried everything
Aside from jewels and pink champagne
And you'd always tell the neighbors kids that you hated me
My truck got fucked up on that one night
Remember we were so terrified
And you cried while my head bled all over your favorite skirt

Sure it worked for a while
Until it hurt to smile
We did good to get I got no regrets
Sure it worked for a while
Till it was work to smile
We did good to get I got no regrets

The stupid things I used to do
Like get super drunk and then call you
And say a bunch of shit that later I'd regret I was an idiot
Well I have to say that I missed you more
Than I've ever missed anyone before
But it's good we split it was time to quit I got no regrets

Sure it worked for a while
Until it hurt to smile
We did good to get I got no regrets
Sure it worked for a while
Till it was work to smile
We did good to get I got no regrets

I got no regrets
I got no regrets
I got no regrets
