

AUTONOMOUS DELIVERY ROBOT

grandson

I get mad whenever I see
The autonomous delivery robot
The autonomous delivery robot
I get mad whenever I see
The self-driving vehicle from San Francisco
Self-driving vehicle from San Francisco (The fuck?)

Overprice a monopoly
And now the internet's no longer a democracy
And my digital footprint follows me
So I could never outrun
The autonomous delivery robot

I get mad (Real fuckin' mad)
Whenever I see (What?)
Another airport retinal scan system (Uh-huh)
Over-personal advertising
The Amazon panopticon self-checkout
I get mad (Real fuckin' mad)
Whenever I see (What?)
The face on the side of the Las Vegas Sphere (Uh-huh)
Always smiling 'cause he knows that the end is near
Tell Boston Dynamics that I can't stand it
Militarize the technology
The inescapable assaulting of my privacy
The algorithm always showin' what I want to see
So I can never outrun-

All new, solar-powered, lightweight
Customized, pink washed, green washed, screen washed
Digitized, AI powered, GPT, sport mode
Night vision, upgraded, downsized, mega Mother's Day edition
Premium and optimized, equipped with facial recognition
Updated, reimagined, integrated, mint condition
Fully-loaded, automatic, authorized, autocratic, authoritarian
Autonomous delivery robot

Oh, woo
Autonomous delivery
