

# BRAINROT

grandson

I saw the news today  
And being human is a losing game we're doomed to play  
Numb to the pain

So distracted  
We don't notice as our last chance slowly passes  
And collapses

Yeah

Watch the world fall off its axis  
Watch the bombs go off paid for by your taxes  
Watch the met ball, watch the brainrot  
Watch the GoPro footage of the head shot

Genocide with a right click  
Advertisements make you wanna buy shit  
It's a constant drip of  
Dopamine more dopamine

Welcome to the hell we're living in  
At the ending of the world we're witnessing  
You can cry for help no one listening  
No, no one's listening

Welcome to the hell we're living in  
And the overexposures sickening  
You can cry for help no one listening  
No one's listening  
So listen in

Watch the stars walk the red carpet  
Watch the cops shoot the wrong girl in her own apartment  
Become a slave to the free market  
Where you pick up the gun or become the target

Watch the downfall  
Watch the closing credits  
It's over forget it  
You know where it's headed  
Straight to the gutter  
Watch as the winter warm up like summer

Watch it all through  
Your new smartphone  
With a battery mined by a child in a war zone  
Then pretend to be ignorant  
Watch the cognitive dissonance

Watch the court get stacked  
The bad guy win  
Watch cause you're looking at the mess you're in  
The phone is a mirror and I am just a reflection  
Of dopamine more dopamine

Welcome to the hell we're living in  
At the ending of the world we're witnessing

You can cry for help no one listening  
No one's listening

Welcome to the hell we're living in  
Overexposed it's sickening  
You can cry for help no one listening  
No one's listening  
So listen in

The overlapping disaster  
Intersectional violence  
I wanna just

The maintaining of power  
In the final hour  
I wanna just

Climbing up broken ladders  
Nothing really matters  
I wanna just

Don't know where to begin so  
I shatter the window  
And then I just

Fuck!  
The overlapping disaster...  
The overlapping disaster intersectional violence I wanna just
