

# Destroy Me

grandson

I bring the match, you bring the gasoline  
It turns me on when you set me on fire  
Enter my bloodstream, you are my nicotine  
I need a fix, can we get much higher?  
I am unconscious, you are my DMT  
You wear a crown that's made out of barbed wire  
I am a lit fuse, you are my kerosene  
I need a fix, will you...

Destroy me  
Destroy me  
Destroy me  
I don't wanna come down  
I don't wanna come down

I am a hollow-point, you're my Baretta  
You're with me when I settle a vendetta  
I am a lost cause singin' to the choir  
I need a fix, can we get much higher?  
I need a sweet escape, you are my heroin  
Sell me a dream on a screen, it's American  
You are temptation, all I desire  
I need a fix, will you...

Destroy me  
Destroy me  
Destroy me  
I don't wanna come down  
I don't wanna come down

This won't last forever  
Nothing really lasts forever  
I can't keep my shit together  
I can't keep my shit together  
This won't last forever  
Nothing really lasts forever  
You're the only one I got  
Plus a pocket full of forget-me-nots  
Then I fuck up, lost with no direction  
This is my one shot at redemption  
Oh can you, can you please...

Destroy me  
Destroy me  
Destroy me  
I don't wanna come down  
I don't wanna come down  
I don't wanna come down  
I don't wanna come down
