

# Die Young

grandson

I just threw out the winning ticket  
Sometimes I smoke it, then I sip it  
I got one life, so I'ma live it  
That is until my time is up, up, up, up  
My President's a neo-Nazi  
Don't listen to them, you are not free  
There ain't nobody gonna stop me  
Let's burn it down and light it up, up, up, up

So we jumpin' off the roof  
We burn this shit 'cause it's whatever  
They wanna block us from the truth  
Because we're stronger when together  
But I know, I know that I'm bulletproof  
We ain't gonna break under the pressure, the pressure  
We jumpin' off the roof  
And if I die young, know the truth is forever

And if I die young, know the truth is forever, ooh  
Yeah  
And if I die young, know the truth is forever  
It's forever

They told me get my head out of the clouds  
Now we gettin' wild in the crowd  
I'll be headed where I never was allowed  
Until my time is up, up, up  
They laugh at you, then call you a criminal  
The real message is subliminal  
The coming revolution will be digital  
Let's burn it down and light it up, up, up, up

And so we jumpin' off the roof  
We burn this shit 'cause it's whatever  
They wanna block us from the truth  
Because we're stronger when together  
But I know, I know that I'm bulletproof  
We ain't gonna break under the pressure, the pressure  
We jumpin' off the roof  
And if I die young, know the truth is forever

And if I die young, know the truth is forever, ooh  
Yeah  
And if I die young, know the truth is forever

Walkin' on the path, better watch out for the snakes  
They be watchin' what you try to do, every move you make  
And when they hear the truth, then they tell you that it's fake  
If you listen, that decision's a mistake  
This is not what it appears  
No, you better listen here  
They wanna separate us so they weaponize fear  
If you try to talk about it, they make you disappear  
It's the same shit, just a different year  
But we ain't stoppin' never, never  
'Cause if I die young, know the truth is forever

Yeah

And if I die young, know the truth is forever

Yeah

And if I die young, know the truth is forever

Forever

And if I die young, know the truth is forever
